

South Australian Aviation Museum *Aircraft Profile*

AERO COMMANDER 680 VH-PSG

Twin engine light passenger transport

History of VH-PSG

First registered in Australia in 1961, the aircraft operated in the Snowy Mountains before it came to Adelaide in 1967. Its ownership changed several times until it was finally purchased by Brenton Miller for operation on charter flights by Skytours Air Charter.

The Aero Commander was purchased by the Museum in March 1990.

** Children are invited to visit the Aero Commander cockpit and “play pilot”.
